

Diesel driven refrigeration unit TS1200

TS-1200 truck independent units is driven directly by a spare low-noise diesel engine or by the external electric power while stopping, and they are suitable for 50~65m³ truck box volume.

TS-1200

Cooling capacity on road

0°C/30°C 10960W

-18°C/30°C 6785W

Airflow 2785m³/h

Road compressor

FK40/560TK

Heating capacity

15°C/0°C 6745W

Standard Features

- Frozen R404a refrigerant
- In cab microprocessor command, with electronic diagnostics
- Hot-gas defrosting and heating
- Plug-in three-phase electric standby
- Compressor CPR regulator; maintenance check valve
- Perkins three cylinder engine; Bock compressor
- Liquid injection for high ambient temperature application
- Brush-less maintenance free fan motors

Standby capacity

0°C/30°C 10205W

-18°C/30°C 6245W

Voltage AC380V

Heating capacity

15°C/0°C 3790W

BODY OPENING 1245*350mm

695mm

1915mm

965mm

TOTAL WEIGHT 582kg

Vehicle Application
